

Submersible Pump LS2204

Used for pumping water from wells, tanks, and reservoirs.

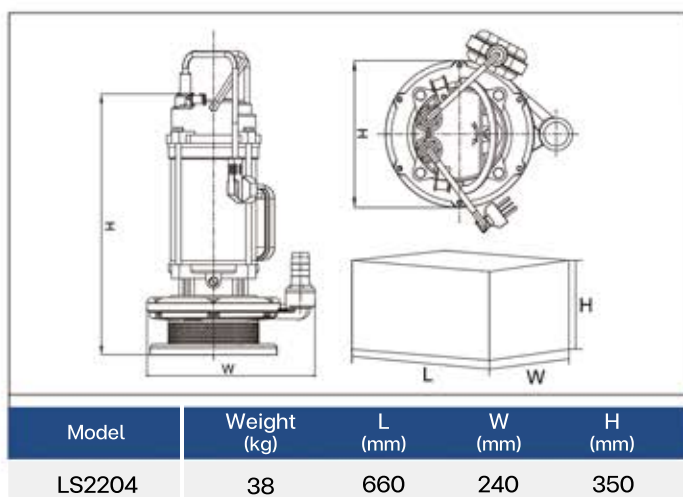

- For Agriculture irrigation and aquaculture farms, sprinkler drain flood water

Specification

Model	LS2204
Power (W)	2200 (3HP)
Cycle (Hz)	50
Voltage (V)	220-230
Current (A)	14
Max Head (m)	15
Capacity (L/m)	1415
Outlet (in.)	4
N.W. (kg)	36
G.W. (kg)	38
Packaging Size (mm)	660*240*350

Dimension

Feature

Pure Copper Winding

The motor features a 100% pure copper winding for excellent electrical conductivity. The motor frame is made of aluminum, providing efficient heat dissipation and a lightweight design.

Cast Iron Pump Case

The pump casing is made of cast iron, providing excellent strength, durability, and corrosion resistance.

Cast Iron Impeller

The cast iron impeller provides excellent strength, durability, and wear resistance, making it suitable for heavy-duty and continuous operation.

Double Mechanical Seal

The mechanical seal is made of carbon and ceramic materials to help prevent leakage. It provides excellent resistance to pressure, heat, corrosion, and contaminants or sediment present in the water.

Performance Curve
