

Self-Priming Auto Electronic Pump WZB Series

Suitable for residential applications such as houses, commercial buildings, offices, shophouses, townhouses, and detached homes.

- Designed for pumping clean water from municipal water supply lines, water tanks, and other sources where increased water pressure is required. Suitable for residential buildings of various sizes.

Specifications

Model	WZB-400	WZB-800
Power (W)	400	800
Cycle (Hz)	50	50
Voltage (V)	220-230	220-230
Current (A)	5.2	5.2
Max Head (m)	40-5	55-5
Max Flow Rate (L/m)	40	55
Depth (m)	8	8
Inlet (in.)	1	1
Outlet (in.)	1	1
N.W. (kg)	9	14.3
Packaging Size (mm)	305*245*295	315*245*325

Dimension

Model	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)	F (mm)
WZB-400	157	63	134	255	214	248
WZB-800	190	63	156	278	228	282

Feature

100% Pure Copper Winding

The motor features a 100% pure copper winding for excellent electrical conductivity and is equipped with Thermal Overload Protection to help prevent motor burnout.

Genuine Brass Impeller

The turbine impeller is made of genuine brass, providing excellent corrosion resistance, rust resistance, high strength, and durability under various environmental conditions.

Flow switch

The flow switch detects water flow to help prevent dry-running and automatically stops the pump when no water flow is detected.

Electronic Control System

The electronic control system precisely regulates pump operation for optimal performance, helping maintain constant, stable, and accurate water pressure.

Performance Curve
